HY ALL !!

PLEASE PEOPLE LETS POPULATE THE SERVERS GAME BECCAUSE THE GAME IS WELL DONE

FRANCESCO CREATED A GOOD GREAT GAME BTW.... Its a fun shooter with great mechanics that suffers from a problem that alot of other similar games have... There are no players so you can only frag bots.

If you have like 7 friends and you all wanna play something together, this would be a good choice.. \u0130n general i don't buy games like quake and unreal because i think the genre is pretty much dead and there's not enough to improve and give something new in that genre. "But" when i saw the trailer of the game, the visuals just reeled me in and i wanted to play and give a review to this good and fun looking game.

First of all i want to emphasize that this game reaaallly needs to be on VR!! Because that game could be a game changer in fps tournament/Varena genre if it was VR playable with these visuals!!! The music choice is really good for this kind of game "but" it needs a lot of work on sound design cuz the sound effects on weapons and explosions etc. are kinda killing the atmosphere because they sound like if they don't belong there and gives you that uneasy kind of feeling. Definitely needs more maps and play modes but the game is on alpha stage and the developer is taking care of his child for now and i think this game is a hell of a fun!!! (even to a person who is not a fan of these types of fps games)

The game and the developer gives you more than you pay for this game anyways so definitely recommended.... Can't change the walking keys pls fix this

. Check out my gameplay on youtube. The game is very stable from what I can tell. I had a ton of fun playing it and could see this becoming highly addictive. <https://www.youtube.com/watch?v=l9tg67mvKGs&t=1526s> .I recommend this game.. your game won't let me move anything but left i could program this better this should be free if its gonna be horrible. Nice fun and fast paced game for the price. there are some balancing issues but they are being fixed.. Very good game with alot of potential. The developer is very active and very helpful. Im hoping to see this community grow :)

The game is pretty cool but:

- Locked at 62 FPS, if you want to use FREESYNC or GSYNC, you're screwed, it tears really a lot..
- No borderless fullscreen function, no windowed mode function
- WHAT IS THE MAIN MUSIC THEME CALLED? I need it!. Its nice to practice your shooting skills on Bots but its nice if there will come more updates like a chat system and a way that more players come. P.S. The achievement that requires a Developer also playing the game is a bit rude.. It is better to delete that achievement because it will be not able to achieve since it feels like the game isnt active in the devoping either. If there are developers active inside the game more then once a week then it might be fine..

Depending on your playstyle I recommend this game only for offline use and to train your shooting skill without players.. Its Really Really Fun I Enjoyed It Even The Bot Practice Was Fun. Not worth buying because of lack of players. Nice to play, and easy to learn to get good, but with no drive to actually use the skill vs real players, the game fails.. Got a coupon
